

Commodity Credit Corporation, USDA

§ 1435.1

§ 1434.23 Death, incompetency, or disappearance; appeals; other loan provisions.

(a) In the case of death, incompetency, or disappearance of any producer who is entitled to the payment of any sum in settlement of a loan, payment shall, upon proper application to the county office that made the loan, be made to the persons who would be entitled to such producer's share under the regulations contained in part 707 of this title. Applications for loans may be made upon application of a representative of the producer as allowed under standard practice for farm programs.

(b) Appeals of adverse decisions made under this part shall be subject to the provisions of 7 CFR parts 11 and 780.

[66 FR 15177, Mar. 15, 2001, as amended at 67 FR 64481, Oct. 18, 2002]

PART 1435—SUGAR PROGRAM

Subpart A—General Provisions

Sec.

- 1435.1 Applicability.
- 1435.2 Definitions.
- 1435.3 Maintenance and inspection of records.
- 1435.4 Administration.
- 1435.5 Other regulations.

Subpart B—Loan Program

- 1435.100 Applicability.
- 1435.101 Loan rates.
- 1435.102 Eligibility requirements.
- 1435.103 Availability, disbursement, and maturity of loans.
- 1435.104 Loan maintenance.
- 1435.105 Loan settlement and foreclosure.
- 1435.106 Miscellaneous provisions.

Subpart C—Information Reporting and Recordkeeping Requirements

- 1435.200 Information reporting.
- 1435.201 Civil penalties.

Subpart D—Flexible Marketing Allotments For Sugar

- 1435.300 Applicability.
- 1435.301 Annual estimates and quarterly re-estimates.
- 1435.302 Establishment and suspension of allotments.
- 1435.303 Overall allotment quantity.
- 1435.304 Adjustment of overall allotment quantity.

- 1435.305 Beet sugar and cane sugar allotments.
- 1435.306 State cane sugar allotment.
- 1435.307 Allocation of marketing allotments to processors.
- 1435.308 Transfer of allocations, new entrants.
- 1435.309 Reassignment of deficits.
- 1435.310 Sharing processors' allocations with producers.
- 1435.311 Proportionate shares for sugarcane producers.
- 1435.312 Establishment of acreage bases under proportionate shares.
- 1435.313 Permanent transfer of acreage base histories under proportionate shares.
- 1435.314 Temporary transfer of proportionate share due to disasters.
- 1435.315 Adjustments to proportionate shares.
- 1435.316 Acreage reports for purposes of proportionate shares.
- 1435.317 Revision of allocations and proportion shares.
- 1435.318 Penalties and assessments.
- 1435.319 Appeals and arbitration.

Subpart E—Processor Sugar Payment-In-Kind (PIK) Program

- 1435.400 General statement.
- 1435.401 Bid submission procedures.
- 1435.402 Bid selection procedures.
- 1435.403 In-kind payments.
- 1435.404 Timing of distribution of CCC-owned sugar.
- 1435.405 Miscellaneous provisions.

AUTHORITY: 7 U.S.C. 1359aa-1359jj and 7272 *et seq.*; 15 U.S.C. 714b and 714c.

SOURCE: 67 FR 54928, Aug. 26, 2002, unless otherwise noted.

Subpart A—General Provisions

§ 1435.1 Applicability.

These regulations set forth the terms and conditions for the 2002-2007 crop years under which the Commodity Credit Corporation (CCC) will:

(a) Make loans and enter agreements with eligible processors,

(b) Collect data from sugarcane processors, sugar beet processors, cane refiners, and importers of sugar, syrup, and molasses,

(c) Administer sugar marketing allotments, and

(d) Administer an inventory disposition program to exchange CCC inventory for processor reductions in production.

§ 1435.2 Definitions.

The definitions set forth in this section are applicable for all purposes of program administration. Terms defined in part 718 of this title are also applicable.

Ability to market means, for purposes of determining the State cane sugar allotments and sugarcane processor allocations for Hawaii and Puerto Rico, the estimated quantity of sugar, raw value, as CCC determines, that will be produced in the cane State or by the sugarcane processor, as appropriate, during the applicable crop year; for determining the remaining State cane sugar allotments, the highest single year of sugar production for the State during the 1999 through 2003 crop years; for determining the sugarcane processor allocations for mainland cane States other than Louisiana, the highest single year of sugar production for the processor during the 1999 through 2003 crop years; and, for determining the sugarcane processor allocations for Louisiana, the simple average of two amounts for each processor, including:

- (1) The production of sugar for the processor, stated in short tons, raw value, during Crop Year 2003, as determined by CCC; and
- (2) The simple average of 3 years of the processor's production of sugar, stated in short tons, raw value, from among the 1999 through 2003 crop years, excluding the year in which the production was the highest and the year in which the production was the lowest. With respect to the 2003 crop year, each processor's production shall be the same as determined under paragraph (1).

Beet sugar means sugar that is processed directly or indirectly from sugar beets or sugar beet molasses.

Beet sugar allotment means that portion of the overall allotment quantity allocated to sugar beet processors.

Cane sugar means sugar derived directly or indirectly from sugarcane produced in the United States, including sugar produced from sugarcane molasses.

Cane sugar allotment means that portion of the overall allotment quantity allocated to sugarcane processors.

Cane sugar refiner means a person who processes raw sugar into refined crystalline sugar or liquid sugar.

Carry-in stocks means inventories of sugar owned by sugar beet processors, sugarcane processors, cane sugar refiners, and CCC and physically located in the United States at the beginning of the fiscal year.

Crop year means the period from October 1 through September 30, inclusive, and is identified by the year in which the crop year begins. For example, the 2002 crop year begins on October 1, 2002. The 2002 crop of sugar beets or sugar cane means domestically grown sugar beets or sugar cane processed during the 2002 crop year. The 2002 crop of sugar means sugar processed from domestically-grown sugar beets or sugarcane during the 2002 crop year. Sugar from de-sugaring molasses is considered to be from the crop year the de-sugaring occurred.

Deputy Administrator means the Deputy Administrator, Farm Programs, FSA, or designee.

Deficit means the quantity of sugar covered by an allocation of an allotment that CCC estimates a sugar beet processor or sugarcane processor will be unable to market during the crop year in which marketing allotments are in effect.

Edible molasses means molasses that is not to be further refined or improved in quality and that is to be distributed for human consumption, either directly or in molasses-containing products.

Edible syrups means syrups that are not to be further refined or improved in quality and that are to be distributed for human consumption, either directly or in syrup-containing products.

Executive Vice President, CCC, means the Executive Vice President, CCC, or designee.

Farm means that entity as defined in § 718 of this title, except that when a State is subject to proportionate shares, producers will not be allowed to have farms reconstituted across State lines even if the farm land is adjoining.

Fiscal year means that year beginning October 1 and ending the following September 30.

FSA means Farm Service Agency.

Imports means sugar originating in foreign countries or areas and entered,

or to be entered, into the United States customs territory.

In-process sugar means the intermediate sugar containing products, as CCC determines, produced in the processing of domestic sugar beets and sugarcane. It does not include raw sugar, liquid sugar, invert sugar, invert syrup, or other finished products that are otherwise eligible for a loan.

Market or marketing means the transfer of title associated with the sale or other disposition of sugar in United States commerce, including the forfeiture of sugar loan collateral under Subpart B, and for any integrated processor and refiner, the movement of raw cane sugar into the refining process.

Nonrecourse loan means a loan for which eligible sugar offered as loan collateral may be forfeited to CCC, at loan maturity, in satisfaction of loan indebtedness.

Overall allotment quantity means, on a national basis, the total quantity of sugar, raw value, processed from domestically produced sugarcane or domestically produced sugar from sugar beets, and the raw value equivalent of sugar in sugar products, that is permitted to be marketed by processors, during a crop year or other period in which marketing allotments are in effect.

Past marketings means, for purposes of determining State cane sugar allotments and sugarcane processor allocations for States other than Louisiana, the average of the 2 highest years of sugar production during the 1996 through 2000 crop years; for Louisiana sugarcane processor allocations, the average of the 2 highest years of sugar production during the 1997 through 2001 crop years.

Past processing means, for determining Hawaii and Puerto Rico's allotments, the 3-year average of the 1998 through 2000 crop years; and for determining the remaining cane State allotments, the 3 crop years with the greatest production (in the States collectively) during the 1991 through 2000 crop years. Past processing, for determining the sugarcane processor allocation for States other than Louisiana, means the average of the 3 highest years of production during the 1996 through 2000 crop years; and, for deter-

mining sugarcane processor allocations in Louisiana, the average of the 2 highest years of sugar production during the 1997 through 2001 crop years.

Per-acre yield goal means a State's yield level that is established at not less than the State's two highest average per-acre yield years from among the 1999 through 2001 crop years as CCC determines to ensure an adequate net return per pound to State producers.

Proportionate share means the total acreage from which a producer may harvest sugarcane for sugar or seed during any crop year or other period in which marketing allotments are in effect.

Raw sugar means any sugar that is to be further refined or improved in quality other than in-process sugar.

Raw value of any quantity of sugar means its equivalent in terms of raw sugar testing 96 sugar degrees, as determined by a polarimetric test performed under procedures recognized by the International Commission for Uniform Methods of Sugar Analysis (ICUMSA). Direct-consumption sugar derived from sugar beets and testing 92 or more sugar degrees by the polariscope shall be translated into terms of raw value by multiplying the actual number of pounds of such sugar by 1.07. Sugar derived from sugarcane and testing 92 sugar degrees or more by the polariscope shall be translated into terms of raw value in the following manner: raw value = $\{[(\text{actual degree of polarization} - 92) \times 0.0175] + 0.93\} \times \text{actual weight}$. For sugar testing less than 92 sugar degrees by the polariscope, derive raw value by dividing the number of pounds of the "total sugar content" (i.e., the sum of the sucrose and invert sugars) thereof by 0.972.

Reasonable carryover stocks means desirable inventories of sugar owned by sugar beet processors, sugarcane processors, cane sugar refiners, and CCC and on hand in the United States at the end of the fiscal year, as CCC determines.

State means any of the 50 States, the District of Columbia, or the Commonwealth of Puerto Rico.

Sugar means any grade or type of saccharine product derived, directly or indirectly, from sugarcane, sugar beets,

§ 1435.3

sugarcane molasses or sugar beet molasses and consisting of, or containing, sucrose or invert sugar, including raw sugar, refined crystalline sugar, edible molasses, edible cane syrup, liquid sugar, and in-process sugar.

Sugar beet processor means a person who commercially produces sugar, directly or indirectly, from sugar beets (including sugar produced from sugar beet molasses), has a viable processing facility, and a supply of sugar beets for the applicable allotment year.

Sugar products means products for human consumption, other than sugar, that contain 50 percent or more of sucrose, on a dry weight basis, and that are marketed by a sugar beet processor or sugarcane processor. In determining sugar subject to marketing allocations, only the sugar content of such products will be counted against the allocation.

Sugarcane processor means a person who commercially produces sugar, directly or indirectly, from sugarcane, has a viable processing facility, and a supply of sugarcane for the applicable allotment year.

Ton means a short ton or 2,000 pounds.

United States means the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

U.S. market value means, for sugarcane, the daily New York Board of Trade No. 14 contract price for raw sugar, or other price, as determined by CCC; for sugar beets, the Midwest refined beet sugar price published in Milling and Baking News, or other price, as determined by CCC.

USDA means the United States Department of Agriculture.

[67 FR 54928, Aug. 26, 2002, as amended at 69 FR 55062, Sept. 13, 2004]

§ 1435.3 Maintenance and inspection of records.

(a) CCC, as well as any other U.S. Government agency, has the right of access to the premises of any sugar beet processor, sugarcane processor, cane sugar refiner, importer of sugars, syrups, and molasses, or of any other person having custody of records that the examining agency deems necessary to verify compliance with this part's requirements. The examining agency

7 CFR Ch. XIV (1–1–06 Edition)

has the right to inspect, examine, and make copies of such books, records, accounts, and other written or electronic data as the examining agency deems relevant.

(b) Each sugar beet processor, sugarcane processor, importer of sugars, syrups and molasses, and cane sugar refiner or any person having custody of the records shall retain such books, records, accounts, and other written or electronic data for not less than 3 years from the date:

(1) A loan is disbursed under subpart B;

(2) Market data are reported to CCC under subpart C of this part; and

(3) Marketings are conducted under marketing allotments under subpart D of this part.

§ 1435.4 Administration.

(a) This program shall be administered under the general supervision of the Executive Vice President, CCC, and may be carried out in the field by FSA State and county committees.

(b) State and county committees, and representatives and employees thereof, may not modify or waive any of the provisions of part 1435.

(c) The State committee shall take any action required by this part that the county committee has not taken. The State committee shall also:

(1) Correct, or require a county committee to correct, a county committee action not under this part; or

(2) Require a county committee to withhold taking any action not under this part.

(d) No provision or delegation herein to a State or county committee shall preclude the Executive Vice President, CCC, from determining any question arising under the program or from reversing or modifying any State or county committee determination.

(e) The Deputy Administrator may authorize State and county committees to waive or modify deadlines and other program requirements in cases where lateness or failure to meet such requirements do not adversely affect program operation.

(f) A CCC representative may execute loans and related documents only

under the terms and conditions CCC determines and announces. Any such document not executed under such terms and conditions, including any purported execution before the CCC-authorized date, shall be null and void.

§ 1435.5 Other regulations

The following are applicable to this part:

- (a) Part 707—Payments due persons who have died, disappeared, or have been declared incompetent.
- (b) Part 718—Provisions applicable to multiple programs.
- (c) Part 780—Appeal regulations.
- (d) Part 1403—Debt settlement policies and procedures.
- (e) Part 1405—Loans, purchases, and other operations.

Subpart B—Loan Program

§ 1435.100 Applicability.

(a) The regulations of this subpart set forth the terms and conditions under which CCC will make non-recourse loans available to eligible processors. Additional terms and conditions are set forth in the loan application and note and security agreement that a processor must execute to receive a loan.

(b) Loan rates used in administering the loan program are available in FSA State and county offices.

(c) Loans shall not be available for sugar produced from imported sugar beets, sugarcane, molasses, syrups and in-process sugar.

§ 1435.101 Loan rates.

(a) The national average loan rate for raw cane sugar produced from domestically-grown sugarcane is 18 cents per pound.

(b) The national average loan rate for refined beet sugar from domestically-grown sugar beets is 22.90 cents per pound.

(c) Loan rates for eligible sugar are adjusted to reflect the processing location of the sugar offered as loan collateral.

(d) Loan rates for eligible in-process sugar shall equal 80 percent of the loan rate applicable to raw cane sugar or beet sugar on the basis of the expected

production of raw sugar or beet sugar from the in-process sugar or syrups.

§ 1435.102 Eligibility requirements.

(a) An eligible producer is the owner of a portion or all of the domestically-grown sugar beets or sugarcane, including share rent landowners, at both the time of harvest and the time of delivery to the processor, except those producers determined to be ineligible as a result of the regulations governing highly erodible land and wetland conservation found at 7 CFR part 12, regulations governing crop insurance at 7 CFR part 400, or regulations governing controlled substance violations at 7 CFR part 718.

(b) In addition to all other provisions of this part, a sugar beet or sugarcane processor is eligible for loans only if the processor has agreed to all the terms and conditions in the loan application, and has executed a note and security agreement, and storage agreement with CCC. No loan proceeds will be distributed by CCC before CCC's approval of the note and security agreement and the CCC storage agreement.

(c) Sugar pledged as collateral during the crop year:

(1) May not exceed the quantity derived from processing domestically-grown sugar beets or sugarcane from eligible producers during the applicable crop year;

(2) Must be processed and owned by the eligible processor and stored in a CCC-approved warehouse;

(3) May not have been processed from imported sugarcane, sugar beets, or molasses;

(4) Must have been processed in the United States; and

(5) Must have processor certification in the loan application that the sugar or in-process sugar syrups are eligible and available to be pledged as collateral.

(d) Sugar and in-process sugar must meet the following minimum quality requirements to be eligible to be pledged as loan collateral:

(1) Refined beet sugar to be pledged as loan collateral must be:

- (i) Dry and free flowing;
- (ii) Free of excessive sediment; and
- (iii) Free of any objectionable color, flavor, odor, or other characteristic

that would impair its merchantability or that would impair or prevent its use for normal commercial purposes.

(2) Raw cane sugar to be pledged as loan collateral must be:

- (i) Of reasonable grain size; and
- (ii) Free of objectionable color, flavor, odor, moisture or other characteristic that would impair its merchantability or that would impair or prevent its use for normal refining and commercial purposes.

(3) Edible sugarcane syrup or edible molasses must be free from any objectionable color, flavor, odor, or other characteristic that would impair the merchantability of such syrup or molasses or would impair or prevent the use of such syrup or molasses for normal commercial purposes.

(4) In-process sugar must be of at least the minimum quality expected to commercially yield raw cane sugar or refined beet sugar, as determined by CCC.

(e) The loan collateral must be stored in a CCC-approved warehouse as described in 7 CFR part 1423.

§ 1435.103 Availability, disbursement, and maturity of loans.

(a) Before obtaining a loan, a processor must:

(1) File a loan application, as CCC prescribes, no earlier than October 1 and no later than September 30 of the applicable crop year, with the State committee of the State where such processor is headquartered, or with a county committee designated by the State committee.

(2) Execute a note and security agreement, and storage agreement with CCC;

(3) Provide quantity and quality information as prescribed by CCC of the commodity to be pledged as collateral;

(4) Pay CCC a loan service fee, as determined by CCC, for the disbursement of each loan.

(5) If there are any liens or encumbrances on sugar or in-process sugar pledged as loan collateral, obtain waivers that fully protect CCC's interest even though the liens or encumbrances are satisfied from the loan proceeds. No additional liens or encumbrances shall be placed on the sugar after loan approval; and

(6) Agree to reimburse CCC for any costs incurred as a result of the failure of the processor to obtain the waivers specified in subparagraph (5).

(b) No loan proceeds may be disbursed until the sugar and in-process sugar have actually been produced and are otherwise established as being eligible to be pledged as loan collateral.

(c)(1) A processor may, within the loan availability period, repledge as collateral sugar that previously served as loan collateral for a repaid loan. In making application for such a loan, the processor shall:

(i) Specify that the loan collateral should be treated as a quantity of eligible sugar that previously served as loan collateral for a repaid loan; and

(ii) Designate the loan to which the reoffered loan collateral was originally pledged.

(2) The subsequent loan shall have the same maturity date as the original loan.

(3) Loan collateral repledged that was previously redeemed from CCC is not included in determining the total quantity of sugar on which loans have been obtained for purposes of § 1435.102.

(d) Raw cane sugar loan disbursements shall be made without regard to the actual polarity or quality factors of the sugar pledged as loan collateral but shall be made on the assumption that the polarity of such sugar is 96 degrees by the polariscope.

(e)(1) Loans will mature at the earlier of:

(i) the end of the 9-month period beginning on the 1st day of the first month after the month in which the loan is made; or

(ii) September 30 following disbursement of the loan.

(2) CCC may accelerate loan maturity dates under § 1435.105(h).

(f) Processors receiving loans in July, August, or September may repledge the sugar as collateral for a supplemental loan. Such supplemental loan shall:

(1) Be requested by the processor during the following October;

(2) Be made at the loan rate in effect at the time the supplemental loan is made; and

(3) Mature in 9 months minus the number of whole months that the initial loan was in effect.

§ 1435.104 Loan maintenance.

(a) All processors receiving loans shall:

(1) Abide by the terms and conditions of the loan application, note and security agreement and storage agreement;

(2) Pay interest on the principal at a rate determined in part 1405 of this chapter.

(b) The security interests CCC obtains as a result of the execution of security agreements by sugarcane and sugar beet processors shall be superior to all statutory and common law liens on raw cane sugar, refined beet sugar, and in-process sugar for the producers of sugarcane and sugar beets and all prior recorded and unrecorded liens on the crops of sugarcane and sugar beets from which the sugar was derived.

(c) A processor receiving a loan under this part shall pay all eligible producers who have delivered or will deliver sugar beets or sugarcane to such processors for processing not less than the minimum payment levels CCC specifies for the applicable crop year.

(1) In the case of sugar beets, the minimum payment shall not exceed the rate of payment provided for under the applicable contract between a sugar beet producer and a sugar beet processor.

(2) CCC will not reject a loan application from a beet sugar processor from eligibility to obtain a loan under this section solely because of the failure of the processor to provide the appropriate minimum payment established under this subsection if the failure:

(i) Occurred during a crop year before the date of enactment of the Farm Security and Rural Investment Act of 2002; and

(ii) Was related, at least in part, to the effects of a natural disaster, including freeze damage.

(3) In the case of sugarcane, CCC will annually determine and announce the annual grower minimum payment.

(4) Processors are ineligible for loans for the crop year following their failure to meet the required minimum grower payment.

(d)(1) A processor shall maintain eligible sugar or in-process sugar of sufficient quality and quantity as collateral to satisfy the processor's loan indebtedness to CCC. CCC shall not assume

any loss in quantity or quality of the loan collateral.

(2) The processor is responsible for storage costs through the loan maturity date or title transfer to CCC, whichever occurs later.

(3) Sugar and in-process sugar pledged as loan collateral need not be stored identity preserved.

(4) When the proceeds of the sale of loan collateral are needed to repay all or part of a sugar loan, the processor may request and obtain prior written approval from the loan making office by executing a loan collateral release request, as prescribed by CCC, to remove a specified quantity of the loan collateral from storage for the purpose of delivering it to a buyer before loan repayment. Any such approval shall be subject to the terms and conditions set forth in the applicable form. The loan making office shall not approve such a request unless the buyer of the sugar agrees to pay CCC an amount necessary to satisfy the processor's loan indebtedness regarding collateral being sold. Any such approval shall not:

(i) Constitute a release of CCC's security interest in the loan collateral; or

(ii) Relieve the processor of liability for the full amount of the loan indebtedness, including interest.

§ 1435.105 Loan settlement and foreclosure.

(a) A processor may, any time before loan maturity, redeem all or any part of the loan collateral by paying CCC the applicable principal and interest.

(b) Forfeiture of sugar loan collateral will be accepted as payment in full of the principal and interest due under a nonrecourse loan, applicable to the quality and quantity of sugar delivered, subject to applicable premiums and discounts.

(c)(1) Forfeiture of in-process sugar serving as loan collateral will be accepted as payment in full of principal and interest if the processor converts the in-process sugar into raw cane sugar or refined beet sugar of acceptable grade and quality for sugar eligible for loans within 1 month of loan maturity.

(2) The in-process sugar must be fully processed into raw cane sugar or refined beet sugar, the processor shall transfer the sugar to CCC.

(3) On transfer of the sugar, CCC shall make a payment to the processor in an amount equal to the amount obtained by multiplying the difference between the loan rate for raw cane sugar or refined beet sugar, as appropriate, and the in-process loan rate the processor received by the quantity of sugar transferred to CCC. The loan agreement shall specify the quantity of sugar that can be forfeited to CCC.

(d) If the processor does not forfeit the collateral, but instead further processes the in-process sugar into raw cane sugar or refined beet sugar and repays the loan on the in-process sugar;

(1) the processor may obtain a loan for the raw cane sugar or refined beet sugar, as appropriate, and

(2) the term of a loan made under this subsection for a quantity of in-process sugar, when combined with the term of a loan made for the raw cane sugar or refined beet sugar derived from the in-process sugar, may not exceed 9 months.

(e) CCC shall not accept delivery of sugar in settlement of a nonrecourse loan in excess of the quantity of sugar that is shown on the note and security agreement minus any quantity that was redeemed or released for removal under this section.

(f) If the processor does not redeem any of the nonrecourse loan collateral, title to the unredeemed nonrecourse loan collateral as described in the note and security agreement will, without further CCC or processor action transfer to CCC in-store at the CCC-approved warehouse at 12 a.m. the day following the maturity date of the loan. Title, all rights, and interest to such sugar shall immediately vest in CCC.

(g) The value of the settlement of loans shall be made by CCC according to the CCC schedule of premiums and discounts.

(h) CCC may, at any time, accelerate the date for loan repayment including interest. CCC will give the processor notice of such acceleration at least 15 days in advance of the accelerated loan maturity date.

(i) If a processor's nonrecourse loan indebtedness is not satisfied under the provisions of this section or if forfeited in-process sugar is not converted to raw or refined sugar within the prescribed time:

(1) Interest on the processor's indebtedness shall accrue as specified in part 1403 of this title and shall accrue until the debt is paid;

(2) CCC may, upon notice, with or without removing the collateral from storage, sell such collateral at either a public or private sale;

(3) The processor shall be liable for the deficiency if the net proceeds are less than the amount of principal, interest, and any other charges CCC incurs; and

(4) If the processor forfeits the in-process sugar loan collateral but does not transfer raw or refined sugar of suitable quality to CCC within 1 month, CCC will charge liquidated damages, as provided in the loan agreement.

§ 1435.106 Miscellaneous provisions.

(a) The regulations governing setoffs and withholding set forth at parts 3 and 1403 of this title are applicable to the program set forth in this subpart.

(b) A producer or processor may obtain reconsideration and review of determinations made under this subpart under the regulations at parts 11 and 780 of this title.

(c) Any false certification, including those made for the purpose of enabling a processor to obtain a loan to which it is not entitled, will subject the person making such certification to liability under applicable Federal civil and criminal statutes.

Subpart C—Information Reporting and Recordkeeping Requirements

§ 1435.200 Information reporting.

(a) Every sugar beet processor, sugar-cane processor, cane sugar refiner, and importer of sugar, syrup, and molasses shall report, on a monthly basis on CCC required forms, its imports and receipts, processing inputs, production, distribution, stocks, and other information necessary to administer sugar programs.

Commodity Credit Corporation, USDA

§ 1435.301

(b) Any processor must, upon CCC's request, provide such information as CCC deems appropriate for determining regional loan rates.

(c) Any processor must, upon CCC's request, provide such information as CCC deems appropriate for determining whether processors of sugarcane or sugar beets will be able to market their respective sugar allocations.

(d) Each sugarcane producer located in Louisiana shall report, in the manner CCC prescribes, sugarcane yields and sugarcane planted acres.

(e) Importers of sugars, syrups, or molasses to be used for domestic human consumption or to be used for the extraction of sugar for domestic human consumption shall report, in the manner CCC prescribes, the quantities of the products imported and the sugar content or equivalent of the products. This requirement shall not apply to sugars, syrups, or molasses within the quantities of tariff-rate quotas subject to the lower rate of duties.

(f) Based on the information received under this subsection, the Secretary shall publish on a monthly basis composite data on sugar production, imports, distribution, and stock levels.

(g) The sugar information reporting and recordkeeping requirements of this subpart are administered under the general supervision of the Executive Vice President, CCC.

§ 1435.201 Civil penalties.

(a) Any processor, refiner, or importer of sugar, syrup, and molasses who willfully fails or refuses to furnish the information, or who willfully furnishes false data required under § 1435.200, is subject to a civil penalty of no more than \$10,000 for each such violation.

(b) The Controller, CCC, shall assess civil penalties and interest.

(c) Affected processors, refiners, and importers of sugar, syrup, and molasses may request reconsideration of civil penalties by filing a request, within 30 days of receipt of certified written notification from the Controller, CCC, of such assessment of civil penalties, with the Executive Vice President, CCC, Stop 0501, 1400 Independence Ave. SW., Washington, DC 20250-0501.

(d) After reconsideration, affected processors, refiners, or importers of sugar, syrup, and molasses may appeal civil penalties by filing a notice of appeal, within 30 calendar days of receipt of certified written notification from the Executive Vice President, CCC, of an affirmation of the assessment of civil penalties, with the National Appeals Division under part 780 of this title.

Subpart D—Flexible Marketing Allotments For Sugar

§ 1435.300 Applicability.

(a) This subpart applies to the establishment and allocation of marketing allotments for:

(1) Processor marketings of sugar domestically processed from sugar beets,

(2) Processor marketings of sugar processed from domestically produced sugarcane,

(3) Distribution of a processor's allocation to producers in proportionate share States, and

(4) Harvesting sugarcane by producers subject to proportionate shares.

(b) This subpart does not apply to:

(1) Marketing sugar for nondomestic or nonhuman consumption,

(2) Marketing imported raw or refined sugar,

(3) Exportation of sugar from the United States customs territory.

(c) This subpart applies throughout the United States and Puerto Rico.

§ 1435.301 Annual estimates and quarterly re-estimates.

(a) Not later than August 1 before the beginning of the crop year, CCC will estimate, and make re-estimates as necessary but not later than the beginning of each quarter of such crop year, the:

(1) Quantity of sugar that will be consumed in the United States (other than sugar imported for the production of polyhydric alcohol or to be refined and re-exported in refined form or in sugar-containing products);

(2) Quantity of sugar that will provide for reasonable carryover stocks;

(3) Quantity of sugar that will be available for consumption from carry-in stocks;

§ 1435.302

(4) Quantity of sugar that will be available for consumption from domestic processing of sugarcane and sugar beets; and

(5) Quantity of sugars, syrups, and molasses that will be imported for human consumption or for the extraction of sugar for human consumption in the United States and Puerto Rico (other than sugar imported for the production of polyhydric alcohol or to be refined and re-exported in refined form or in sugar-containing products), whether such articles are included in a tariff-rate quota or not.

(b) Calculation of all allotments, allocations, estimates, and re-estimates in this subpart will use available USDA statistics and estimates of production, consumption, and stocks, taking into account, where appropriate, data supplied in reports submitted pursuant to the reporting requirements set forth in § 1435.200.

§ 1435.302 Establishment and suspension of allotments.

(a) By the beginning of the crop year, CCC will establish the overall allotment quantity, beet sugar and cane sugar allotments, State cane sugar allotments, and allocations for processors marketing sugar domestically processed from sugar beets and domestically produced sugarcane at a level estimated to result in no sugar loan collateral forfeitures to CCC.

(b) Marketing allotments will be suspended whenever CCC determines that imports of sugars, syrups, and molasses for domestic human consumption or to be used for the extraction of sugar for domestic human consumption, whether under a tariff-rate quota or not, will exceed 1,532,000 short tons, raw value, excluding any imports attributable to a reassignment of allotments, and that the imports would lead to a reduction in the overall allotment quantity. The suspension of marketing allotments will be lifted if CCC subsequently determines that imports are estimated to be no higher than 1,532,000 short tons, raw value.

(c) Each determination under this section to establish or suspend marketing allotments will be published in the FEDERAL REGISTER and accom-

7 CFR Ch. XIV (1–1–06 Edition)

panied by a statement of the reasons for the determination.

§ 1435.303 Overall allotment quantity.

The overall allotment quantity for the crop year will be calculated by deducting from the sum of estimated sugar consumption and reasonable carryover stocks:

- (a) 1,532,000 short tons, raw value; and
- (b) Carry-in stocks.

§ 1435.304 Adjustment of the overall allotment quantity.

(a) The overall allotment quantity will be adjusted, as CCC determines appropriate,

(1) To avoid forfeiture of sugar loan collateral to CCC, and

(2) To reflect changes in estimated consumption, stocks, production, or imports based on re-estimates under § 1435.301.

(b) Each determination to adjust the overall allotment quantity will be published in the FEDERAL REGISTER and accompanied by a statement of the reasons for the determination.

(c) The beet sugar allotment, cane sugar allotment, State cane sugar allotments, proportionate shares, and allocations to each sugar beet processor and sugarcane processor will be increased or decreased, as appropriate, to reflect an overall allotment quantity adjustment.

(d) If the overall allotment quantity is reduced under paragraph (a) of this section and the quantity of sugar and sugar products any individual processor marketed by the time of the reduction exceeds the processor's reduced allocation, the quantity of excess sugar or sugar products marketed will be deducted from the processor's allocation under an allotment next established.

§ 1435.305 Beet and cane sugar allotments.

(a) The allotment for beet sugar will be 54.35 percent of the overall allotment quantity.

(b) The allotment for cane sugar will be 45.65 percent of the overall allotment quantity.

(c) A sugar beet processor allocated a share of the beet sugar allotment may use only beet sugar to fill such allocation. A sugarcane processor allocated a

share of the cane sugar allotment may use only cane sugar to fill such allocation.

§ 1435.306 State cane sugar allotments.

(a) Hawaii and Puerto Rico will be allotted a total of 325,000 short tons, raw value, of the cane sugar allotment.

(b) A new entrant cane State will receive an allotment to accommodate a new processor's allocation under 1435.308(f).

(c) Subject to paragraphs (a) and (b) of this section, the remaining cane States will be allotted, in aggregate, the remaining cane sugar allotment.

(d) The individual cane State allotments, other than a new entrant cane State, will be based on:

(1) Past marketings of cane sugar,

(2) Past processing of cane sugar, and

(3) The ability to market the sugar covered under the allotment assigned to the State.

(e) Past marketings and past processings will each be weighted by 0.25 and the ability to market will be weighted by 0.50 in determining the States' respective cane sugar allotments. The weights may be adjusted, as CCC deems appropriate, for the crop year.

(f) Except when deficits are reasigned as provided in § 1435.309, a processor may fill an allocation of a cane sugar allotment only with sugar processed from sugarcane grown in the State for which the allotment was established.

§ 1435.307 Allocation of marketing allotments to processors.

(a) Each sugar beet processor's allocation of the beet allotment will be calculated as the beet processor's share times the beet sector allotment:

(1) A beet processor's share is calculated as the beet processor's adjusted weighted average sugar production divided by the sum of all beet processors' adjusted weighted average sugar production.

(2) A beet processor's weighted average sugar production equals 0.25 times its 1998-crop sugar production plus 0.35 times its 1999-crop sugar production plus 0.40 times its 2000-crop sugar production, with the 2000 sugar PIK pay-

ments added to its 2000-crop sugar production.

(3) A beet processor's weighted average sugar production shall be adjusted by the following, as CCC determines:

(i) Increased 1.25 percent of the sum of all beet processors' weighted average sugar production for opening a sugar beet processing factory during the 1996 through 2000 crop years;

(ii) Decreased 1.25 percent of the sum of beet processors' weighted average sugar production for closing a sugar beet processing factory during the 1998 through 2000 crop years;

(iii) Increased 0.25 percent of the sum of all beet processors' weighted average sugar production for opening a molasses desugarization facility during the 1998 through 2000 crop years; and

(iv) Increased 1.25 percent of the sum of all beet processors' weighted average sugar production for suffering a substantial quality loss on stored beets, as CCC determines, during the 1998 through 2000 crop years.

(b) Each sugarcane processors' allocation from a State cane sugar allotment will be calculated as the cane processor's share times the State cane sector allotment.

(1) Each cane processor's share, other than a new entrant, will be calculated as the processor's production base divided by the sum of the State's processor production bases.

(2) A processor's production base, other than a new entrants, is the sum of 0.50 times its ability to market plus 0.25 times its past processings plus 0.25 times its past marketings. These weights may be adjusted as CCC deems appropriate for the crop year.

(3) CCC will calculate an allocation for the Talisman processing facility, based on paragraph (b)(2) of this section and distribute the allocation among Florida processors according to the agreements between cane processors and the Secretary of the Interior dated March 25, and March 26, 1999.

(c) An informal hearing will be held in August of each year, if requested by affected sugarcane processors and growers by July 15th, to afford all interested persons the opportunity to comment on the next crop year's marketing allotments and allocations.

After consideration of comments obtained at the hearing, a final determination on cane State allotments and processor allocations will be announced.

(d) During any crop year in which marketing allotments are in effect and allocated to processors, the quantity of sugar and sugar products that a processor markets shall not exceed the quantity of the processor's allocation.

(e) Paragraph (d) of this section shall not apply to:

(1) Any sugar marketings to facilitate the export of sugar or sugar-containing products;

(2) Any sugar marketings for nonhuman consumption; and

(3) Any processor marketings of sugar to another processor made to enable the purchasing processor to fulfill its allocation if such sales:

(i) Are made before May 1, and

(ii) Reported to CCC within 51 days of the date of sale.

(f) Paragraph (d) of this section also shall not apply to marketings of purchased sugar marketed in the crop year of the purchase, but does apply to marketings of sugar purchased as part of a transaction pursuant to paragraph (e)(3) of this section.

(g) CCC may charge liquidated damages, as specified in a surplus allocation survey and agreement, on surplus allocation after the end of a crop year if the processor had surplus allocation because the processor provided incomplete or erroneous information to CCC.

[67 FR 54926, Aug. 26, 2002, as amended at 69 FR 39813, July 1, 2004]

§ 1435.308 Transfer of allocation, new entrants.

(a) If a sugar beet or sugarcane processing facility is closed and the growers that delivered their crops to the closed facility elect to deliver their crops to another processor, the growers may petition the Executive Vice President, CCC, to transfer the share of allocation commensurate with the growers' production history from the processor that closed the facility to their new processor. CCC may grant the request to transfer the allocation upon:

(1) Written approval of the processing company that will accept the additional deliveries, and

(2) Evidence satisfactory to CCC that the new processor has the capacity to accommodate the production of petitioning growers.

(b) Subject to a transfer of allocation, if any, described in paragraph (a) of this section being completed, CCC will permanently eliminate the processor's remaining allocation and distribute it to all other processors on a pro-rata basis when the processor:

(1) Has been dissolved,

(2) Has been liquidated in a bankruptcy proceeding, or

(3) Has permanently terminated operations by:

(i) Not processing sugarcane or sugar beets for 2 consecutive years, or

(ii) Notifying CCC that the processor has permanently terminated operations.

(c) If a purchaser purchasing the assets of another processor is a new entrant or is a processor purchasing all the assets of the selling processor, then CCC shall immediately transfer allocation commensurate with the purchased factories' production history.

(d) If a processor does not purchase all of the assets of another processor, then the purchased factories must operate for the remainder of the initial season and the following crop year for the purchasing processor to permanently obtain the allocation. If the purchased factories do not operate for this required time period, CCC shall reassign the allocation to the other processors on a pro rata basis.

(e) Allocations, equal to the number of acres of proportionate shares being transferred times the State's per-acre yield goal, will be transferred between mills in proportionate share States, if the transfers are based on:

(1) Written consent of the crop-share owners, or their representatives,

(2) Written consent of the processing company holding the allocation for the subject proportionate shares,

(3) Written consent of the processing company that will accept the additional sugarcane deliveries, and

(4) Evidence, satisfactory to CCC, that the additional sugarcane deliveries will not exceed the processing capacity of the receiving company.

(f) New entrants, not acquiring existing facilities with production history

in the base period, may apply to the Executive Vice President, CCC, for an allocation.

(1) Applicants must demonstrate their ability to process, produce, and market sugar for the applicable crop year.

(2) CCC will consider adverse effects of the allocation upon existing processors and producers.

(3) New entrant cane processors are limited to 50,000 short tons, raw value, the first crop year.

(4) New entrant cane processors will be provided, as determined by CCC:

(i) A share of their State's cane allotment if the processor is located in Hawaii, Puerto Rico, Florida, Louisiana, or Texas, or

(ii) A share of the overall cane allotment if the processor is located in any state not listed in paragraph (f)(4)(i) of this section.

(5) CCC will conduct a hearing on a new entrant application if an interested processor or grower requests a hearing.

(6) If a new entrant acquires and reopens a factory that previously produced beet sugar from sugar beets and sugar beet molasses, but the factory last operated during the 1997 crop year, CCC will:

(i) Assign an allocation to the new entrant not less than the greater of 1.67 percent of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years, as determined under §1435.307, or 1,500,000 hundred-weight.

(ii) Reduce all other beet processor allocations on a pro rata basis.

[69 FR 39813, July 1, 2004, as amended at 69 FR 48765, Aug. 11, 2004]

§ 1435.309 Reassignment of deficits.

(a) CCC will determine, from time to time, whether sugar beet or sugarcane processors will be unable to market their allocations.

(b) Sugar beet and sugar cane processors will report to CCC current inventories, estimated production, expected marketings, and any other pertinent factors CCC deems appropriate to determine a processor's ability to market their allocation.

(c) If CCC determines a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will be reassigned as follows:

(1) First, to allocations of other sugarcane processors within that State based on each processor's initial allocation share of the State's allotment, but no processor may receive reassigned allocation such that its allocation exceeds its estimated total sugar supply.

(2) If the deficit cannot be eliminated after reassignment within the same State, be reassigned to the other cane States based on each State's initial share of the cane sugar allotment, but no State may receive reassigned State allotment such that its allocation exceeds its estimated total sugar supply, with the reassigned quantity to each State being allocated according to paragraph (c)(1) of this section.

(3) If the deficit cannot be eliminated by paragraphs (c)(1) and (c)(2) of this section, be reassigned to CCC. CCC shall sell such quantity from inventory unless CCC determines such sales would have a significant effect on the sugar price.

(4) If any portion of the deficit remains after paragraphs (c)(1), (c)(2), and (c)(3) of this section have been implemented, be reassigned to imports.

(d) The initial estimate of the sugarcane deficit will be reassigned by June 1. CCC will conduct later reassignments if CCC determines, after June 1, that a sugarcane processor will be unable to market its full allocation.

(e) If CCC determines that a sugar beet processor is unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will:

(1) First, be reassigned proportionately to allocations of other sugar beet processors, depending on the capacity of other processors to fill the portion of the deficit to be reassigned to them, accounting for the interests of associated producers.

(2) If the deficit cannot be eliminated by paragraph (e)(1) of this section, be reassigned to CCC. CCC shall sell such quantity from inventory unless CCC determines such sales would have a significant effect on the sugar price.

§ 1435.310

7 CFR Ch. XIV (1–1–06 Edition)

(3) If any portion of the deficit remains after paragraphs (e)(1) and (e)(2) of this section have been implemented, be reassigned to imports.

(f) The crop year allocation of each sugar beet or sugarcane processor who receives a reassignment will be increased accordingly for that year.

[67 FR 54928, Aug. 26, 2002, as amended at 69 FR 55063, Sept. 13, 2004; 69 FR 58037, Sept. 29, 2004; 70 FR 28181, May 17, 2005]

§ 1435.310 Sharing processors' allocations with producers.

(a) Every sugar beet and sugarcane processor must provide CCC a certification that:

(1) The processor intends to share its allocation among its producers fairly and equitably, and in a manner adequately reflecting each producer's production history, and

(2) The processor has, in the previous allotment year, shared its allocation among producers fairly and equitably, reflecting each producer's production history. If a processor is unable to provide such certification, CCC may reduce or eliminate its marketing allocation.

(b) CCC will determine that a processor in a proportionate share state has met the conditions of paragraph (a) of this section if the processor establishes a grower payment plan that incorporates the following provisions:

(1) Pays growers for sugar from their delivered sugarcane in the following priority:

(i) Sugar production from proportionate share acreage; as established under §1435.311, for producers determined by CCC, who;

(A) Delivered to the mill in at least one of the crop years 1999, 2000, or 2001,

(B) Obtained an allocation transfer from a predecessor mill, or

(C) Have been designated by the mill to supply sugarcane replacing sugarcane lost to the mill since the 2001 crop year,

(ii) Sugar production from base acreage, as established under §1435.312, but exclusive of the acreage described in paragraph (b)(1)(i) of this section, for producers who meet the requirements of paragraph (b)(1)(i) of this section, then

(iii) All other sugar production.

(2) If a mill cancels a producer's contract, the mill must permit the producer to move an allocation commensurate with the producer's production history to a mill of the producer's choice.

(3) In determining the payment priority, a processor may aggregate the acreage of an operator (producer making the crop production decisions) across all the operator's farms delivering cane to the processor.

(c) CCC will determine that a processor not in a proportionate share state, which is cooperatively owned by producers, has met the conditions of paragraph (a) of this section if the processor shares its allocation with its producers according to its cooperative membership agreement.

(d) CCC will disclose farm base and reported acres data in a proportionate share state to processors upon their request for growers delivering to their mill. In the case of multiple producers on a farm or growers delivering to more than one mill, subject mills will be responsible for coordinating proportionate share data.

(e) Any producer or processor may request arbitration of a dispute regarding the sharing of the processor's allocation among the producers. Arbitration will be available on behalf of CCC at the State FSA office for the State in which the processor is located. Subsequent review of the arbitration decision is available at the discretion of the Executive Vice President, CCC. Any arbitration is subject to appeal to the Office of the Administrative Law Judge, USDA.

[67 FR 54926, Aug. 26, 2002, as amended at 69 FR 39813, July 1, 2004]

§ 1435.311 Proportionate shares for sugarcane producers.

(a) Proportionate shares and the provisions of this section and §§1435.312 through 1435.316 apply only to Louisiana sugarcane farms.

(b) CCC will determine whether Louisiana sugar production, in the absence of proportionate shares, will exceed the quantity needed to enable processors to fill the State cane sugar allotment and provide a normal carryover inventory. If the determination is made that the

quantity of sugar produced in Louisiana, plus a normal carryover inventory, will exceed the State's allotment, CCC will establish for each sugarcane producing farm a proportionate share that limits the sugarcane acreage that may be harvested on the farm for sugar or seed.

(c) For purposes of determining proportionate shares CCC will:

(1) Establish the State's per-acre yield goal at a level not less than the average per-acre yield in the State for the 2 highest years from among the 1999 through 2001 crop years;

(2) Adjust the per-acre yield goal by the State average recovery rate;

(3) Convert the State cane sugar allotment into a State acreage allotment by dividing the State allotment by the adjusted per-acre yield goal;

(4) Establish a uniform reduction percentage for the crop by dividing the State acreage allotment by the sum of all adjusted acreage bases in the State as determined under § 1435.312; and

(5) Apply the uniform reduction percentage to the acreage base established for each sugarcane producing farm in the State to determine the farm's proportionate share of sugarcane acreage that may be harvested for sugar or seed.

§ 1435.312 Establishment of acreage bases under proportionate shares.

(a) CCC will establish a sugarcane crop acreage base for each farm subject to proportionate shares as the simple average of the acreage planted and considered planted for harvest for sugar or seed on the farm in the 2 highest of the 1999 through 2001 crop years. Acreage considered planted shall be determined under § 1435.315.

(b) In establishing crop acreage bases, CCC will:

(1) Not consider acreage prevented from planting, and

(2) Consider acreage planted to sugarcane that fails.

(c) In establishing crop acreage bases, CCC will allow producers who have not previously reported their sugarcane acreage to do so by a date CCC determines and announces. Late-filed acreage reports will be accepted as the Deputy Administrator determines appropriate.

(d) The farm's crop acreage base shall be used to determine the farm's proportionate share.

(e) The regulations at part 718 of this title shall apply to this subpart, except reconstitution of farms with a sugar crop acreage base shall not be allowed across State lines.

§ 1435.313 Permanent transfer of acreage base histories under proportionate shares.

(a) A sugarcane producer on a farm may transfer all or a portion of the producer's acreage base history of land owned, operated, or controlled to any other farm in the State that the producer owns, operates, or controls under the Deputy Administrator-issued instructions. The transfer will reduce permanently the transferring farm's sugarcane acreage base history and increase the receiving farm's crop acreage base.

(b) All farm owners must agree in writing to the transfer.

(c) Producers may transfer sugarcane acreage base histories under this section by the date the State FSA committee establishes annually.

§ 1435.314 Temporary transfer of proportionate share due to disasters.

(a) If, for reasons beyond the control of a producer on a farm, such producer is unable to harvest sugarcane acreage relative to all or a portion of the proportionate share established for the farm, the Secretary may preserve, on producer application and written consent of all owners of the farm, for a period of not more than 5 consecutive years, the acreage base history of the farm to the extent of the proportionate share involved.

(b) Such proportionate share may be transferred, with the written consent of all owners of the farm, for 1 crop year to other farm owners or operators subject to the following conditions:

(1) The acreage base history of the transferring farm will be preserved for a period from 1 to 5 years; and

(2) Acreage base history will not be increased on the receiving farm.

(c) Producers who transfer a proportionate share under this section will be required to:

§ 1435.315

(1) Initiate the transfer in the county FSA office where the proportionate shares are established; and

(2) Obtain approval from the transferring county FSA committee.

(d) All transfers made under this section must be completed by the date the State FSA committee establishes.

§ 1435.315 Adjustments to proportionate shares.

Whenever CCC determines that, because of a natural disaster or other condition beyond the control of producers adversely affecting a sugarcane crop, the amount of sugarcane produced by producers subject to proportionate shares will not be sufficient to enable state processors to produce sufficient sugar to meet the State's cane sugar allotment and provide a normal carryover of sugar, CCC may uniformly allow producers to harvest sugarcane in excess of their proportionate shares, or suspend proportionate shares entirely.

§ 1435.316 Acreage reports for purposes of proportionate shares.

(a) A report of planted and failed acreage shall be required on farms that produce sugarcane for sugar or seed. Such report shall also specify the total acreage intended for harvest for sugar and seed.

(b) The reports required under paragraph (a) of this section shall be on forms prescribed by CCC and shall be filed annually with the county FSA committee by the applicable final reporting date CCC establishes. The farm operator or farm owner shall file such reports.

(c) Acreage reports will be used to determine compliance with proportionate shares and acreage bases for future proportionate shares.

(d) An acreage report may be accepted after the established date for reporting if physical evidence is still available for inspection that may be used to make a determination relative to:

(1) Existence of the crop;

(2) Use made of the crop;

(3) Lack of crop; or

(4) Disaster condition affecting the crop.

(e) The farm operator shall pay the cost of a farm visit by an authorized

7 CFR Ch. XIV (1-1-06 Edition)

FSA employee unless the county FSA committee has determined that failure to report in a timely manner was beyond the producer's control.

(f) The farm operator may revise an acreage report. Revised reports shall be filed in accordance with CCC instructions and shall be accepted at any time if:

(1) Evidence exists for inspection and determination of:

(i) Existence of the crop;

(ii) Use made of the crop;

(iii) Lack of crop; or

(iv) Disaster condition affecting the crops.

(2) The farm has not already been inspected and the acreage already determined or harvesting of sugarcane already begun.

(g) Provisions of part 718 of this chapter will apply for field inspections, tolerance, and variance. Assessments for false acreage reporting will be applied under § 1435.318.

§ 1435.317 Revisions of allocations and proportionate shares.

The Executive Vice President, CCC, may modify any processor's allocation or any producer's proportionate share on the same basis as the initial allocation or proportionate share was required to be established.

§ 1435.318 Penalties and assessments.

(a) Under § 359b(c)(3) of the Agricultural Adjustment Act of 1938, as amended, any sugar beet or sugarcane processor who knowingly markets sugar or sugar products in excess of the processor's allocation in violation of § 1435.307 shall be liable to CCC for a civil penalty in an amount equal to 3 times the U.S. market value, at the time the violation was committed, of that quantity of sugar involved in the violation.

(b) Under § 359f(c)(5) of the Agricultural Adjustment Act of 1938, as amended, any producer of sugarcane whose farm has a proportionate share, and who knowingly harvests or allows to be harvested an acreage of sugarcane for sugar or seed in excess of the farm's proportionate share shall pay to CCC a civil penalty in an amount equal to 1.5 times the U.S. market value of the quantity of sugar that is marketed

Commodity Credit Corporation, USDA

§ 1435.400

by the processor of such sugarcane in excess of the allocation of such processor, for the year in which the violation was committed. However, civil penalties will not be assessed when the producer harvests acreage for sugar or seed in excess of the farm's proportionate share, if the excess sugarcane harvested is:

(1) Processed by a sugarcane processor that does not exceed its marketing allocation; or

(2) Diverted to a use other than sugar or seed if:

(i) The sugarcane producer requests and pays for a CCC field inspection, and

(ii) CCC verifies the disposition of the excess harvest is not for sugar or seed.

(c) Any penalty assessed under paragraph (b) of this section shall be prorated among the producers of all sugarcane acquired by the processor from excess acres.

(d) Any person filing a false acreage report that exceeds tolerance will be subject to an assessment not to exceed \$10,000. Whenever the failure of a producer to comply fully with the terms and conditions applicable to proportionate shares would result in an assessment, the Deputy Administrator may authorize the waiver or reduction of the assessment in such amounts as determined to be equitable about the seriousness of the failure, the producer's good-faith effort to comply fully with such terms and conditions, and the producer's substantial performance.

(e) Any person who knowingly violates any provision of this subpart other than paragraph (d) of this section is subject to the assessment of a civil penalty by CCC of not more than \$5,000 for each violation.

§ 1435.319 Appeals and arbitration.

(a) A person adversely affected by any determination made under this subpart may request reconsideration of such determination by filing a written request with the Executive Vice President, CCC, detailing the basis of the request within 10 days of such determination. Such a request must be submitted at: Executive Vice President, CCC, Stop 0501, 1400 Independence Ave., SW, Washington, DC 20250-0501.

(b) For issues arising under section 359d establishing allocations for marketing allotments, and sections 359f(b) and (c), and section 359i of the Agricultural Adjustment Act of 1938, as amended, after completion of the process provided in paragraph (a) of this section, a person adversely affected by a reconsidered determination may appeal such determination by filing a written notice of appeal within 20 days of the issuance of the reconsidered determination with the Hearing Clerk, USDA, Room 1081, South Building, 1400 Independence Ave., SW., Washington, DC 20250-9200. Any hearing conducted under this paragraph shall be in accordance with instructions issued by USDA's Judicial Officer.

(c) For issues arising under §§359a-359c, 359e, and 359g of the Agricultural Adjustment Act of 1938, as amended, after completion of the process provided in paragraph (a) of this section, a person adversely affected by the reconsidered determination may appeal such determination by filing a written notice of appeal with the Director, National Appeals Division, USDA, as provided in part 11 of this title. For issues arising under §359f(a) of the Agricultural Adjustment Act of 1938, as amended, such disputes shall be resolved through arbitration under the direction of the Executive Vice President, CCC. A request for arbitration must be filed in writing at the address specified in paragraph (a) of this section.

[67 FR 54926, Aug. 26, 2002, as amended at 69 FR 39814, July 1, 2004]

Subpart E—Processor Sugar Payment-In-Kind (PIK) Program

§ 1435.400 General statement.

This subpart shall be applicable to sugar beet and sugarcane processors throughout the United States who, acting in conjunction with the producers of the sugarcane or sugar beets processed by the processors, reduce sugar production in return for a payment of sugar from CCC when CCC determines that such action will reduce forfeitures of sugar pledged as collateral for a CCC loan.

§ 1435.401 Bid submission procedures.

(a) After announcement by CCC that a program authorized by this subpart is in effect, processors who desire to participate in the program must submit a bid to CCC, on a form prescribed by CCC, that specifies:

(1) For a program involving acreage diversion, the amount of acreage to be reduced by producers who have contracts for delivery of sugar beets or sugar cane to the processor and contains the information CCC determines necessary to conduct the program and includes but is not limited to:

(i) The number of acres that the processor, acting in conjunction with the producers, will divert;

(ii) The previous consecutive 3-year simple average sugar beet or sugarcane yield on that acreage while under contract (years with no production contracted with a producer will not be considered (for first-time producers, however, the previous consecutive 3-year simple average sugar beet or sugarcane yield for all the producers under contract who delivered to the applicable factory will be used);

(iii) The previous 3-year simple average sugar content of the producer's beets or sugarcane (for first-time producers, the previous 3-year simple average sugar content for all beets or cane delivered to that factory will be used);

(iv) The processor's previous 3-year simple average recovery rate (for processors that have not been fully operational during the last 3 years, the simple average for those years that they were fully operational);

(v) The value of CCC sugar to be received as payment; and

(vi) Other information CCC deems necessary for program administration; or

(2) The sugar production capacity to be removed from production by the processor.

(b) The following acreage is ineligible for enrollment in the PIK program:

(1) If planted, acreage not currently under contract for delivery of sugar beets to a sugar beet processor or sugarcane to a sugarcane processor for sugar production.

(2) If planted, acreage that is not harvestable,

(3) Acreage devoted to roads or other non-producing areas, or

(4) If planted, acreage on which a crop insurance indemnity or replant payment was received for the current crop or for which a claim has been, or will be, filed to receive a crop insurance indemnity or replant payment for the current crop, except for replant payments for acreage actually replanted before the end of the normal planting period.

(c) If planted, the diverted acres cannot be grazed until after the sugar beets or sugarcane are destroyed by disking, plowing, or other means of mechanical destruction. In addition, the sugar beets or sugarcane on the diverted acres may not be used for any commercial purpose.

(d) The acreage offered must meet the following requirements:

(1) If less than or equal to 15 acres, then the acreage bid must consist of one of the following:

(i) One contiguous area of land,

(ii) One or more entire permanent fields, or

(iii) One or more entire permanent fields and one contiguous area of land to complete the balance;

(2) If more than 15 acres, then the acreage bid must consist of one of the following:

(i) One or more areas of land of at least 15 contiguous acres each with one remaining area of land of less than 15 contiguous acres to complete the balance,

(ii) One or more entire permanent fields, or

(iii) One or more entire permanent fields and one area of contiguous land to complete the balance.

(3) Contiguous areas of land must have a minimum width of 3 chains (198 feet).

(e) For a program involving desugaring capacity, or other measures of sugar production, not involving acreage diversion, the bid must contain the information CCC determine necessary to conduct the program.

§ 1435.402 Bid selection procedures.

(a) For bids in which the processor offers to remove acreage of sugar beets or sugarcane from production, CCC will rank bids on the basis of the bid

Commodity Credit Corporation, USDA

§ 1436.1

amount as a percentage of the expected sugar produced from the retired acreage. Bids with the lowest of such percentages will be selected first. In the case of identical bids, selection may be based on random selection or pro rata shares, as CCC deems appropriate.

(b) CCC will reject bids for which the bid amounts exceed the expected sugar produced from the retired acreage.

(c) For bids in which the processor offers to remove sugar production capacity from production, CCC will rank the bids on the basis of the capacity to be removed from production.

(d) All acceptable bids specified in paragraphs (a) and (c) of this section will be further reviewed by CCC and ranked in order of the greatest reduction in sugar program that can be achieved at the lowest cost to CCC.

§ 1435.403 In-kind payments.

(a) CCC will, through such methods as CCC deems appropriate, make payments in the form of sugar held in CCC inventory.

(b) To the maximum extent practicable, CCC will use its inventory in making an in-kind payment based on the following priority:

(1) CCC-owned sugar held in storage by the processor;

(2) CCC-owned sugar held in storage by any other processor in the same region as the producer;

(3) CCC-owned sugar held in storage by any other processor that is not in the same region as the producer; and

(4) CCC-owned sugar held in storage anywhere in the United States, if CCC determines that such sugar is eligible to be used for in-kind payments.

(c) The value of CCC-owned inventory is dependent upon the storage location of the sugar and the type of sugar (raw or refined). CCC will announce the value of its inventory before bid solicitation. Accordingly, the quantity of sugar CCC will provide in terms of an in-kind payment to a processor will be determined by dividing:

(1) The total of the processor's bid amount that CCC accepts, by

(2) The value of CCC's inventory at the storage location at which title will transfer from CCC to the processor.

§ 1435.404 Timing of distribution of CCC-owned sugar.

Distribution of sugar from CCC inventory will occur in such manner as CCC determines appropriate.

§ 1435.405 Miscellaneous provisions.

(a) CCC may permit processors to bid, in lieu of acreage, desugarizing capacity or other measures of sugar production as CCC determines.

(b) The contract shall provide for the payment of liquidated damages if a processor fails to comply with the obligations specified in the CCC production diversion contract.

(c) CCC will transfer title of the sugar to the processor by notifying the processor or assignee that the sugar is available. CCC will stop storage payments on this sugar on the date of transfer.

PART 1436—FARM STORAGE FACILITY LOAN PROGRAM REGULATIONS

Sec.

1436.1 Applicability.

1436.2 Administration.

1436.3 Definitions.

1436.4 Availability of loans.
